dr pat wolfe renown educator and expert in the practical applications of cognitive neurosciences offers this opening in her concise forward to this book about the wide ranging uses of thinking maps neuroscientists tell us that the brain organizes information in networks and maps the thinking maps program takes full advantage of the natural proclivity of the brain to think visually student successes with thinking maps presents a language of eight visual tools and framing tools based on fundamental cognitive processes of the human brain and mind that boost all learners metacognitive and critical thinking skills the first chapter by thinking maps creator david hyerle ed d is a comprehensive introduction to the theory history research and results from the systematic implementation of thinking maps over time this book is rich in detail and inspiration from teachers principals and administrators from around the world and across diverse schools and systems the wide ranging stories and supporting data across the 19 chapters weave together to create a unified theme of thinking maps as a transformational language for learning from the authors of these chapters you will learn about school wide changes in teachers effectiveness and student performance in an inner city elementary school in long beach california where 85 of the students entering classrooms speak spanish as their first language students with special needs in a middle school in north carolina making performance leaps of over three years growth in mathematics girls from a single sex independent k 12 school in new zealand rising over four years to the top of that nation s educational

ladder and entering junior college students in mississippi significantly shifting reading comprehension scores while those in the nursing program dramatically outperform their peers of previous years you will also hear about the pass christian school district landfall for hurricane katrina rising over the years to become the top performing school system in louisiana the authors of the chapters before you bring forth insights grounded in practical examples and experiences from their work to transform teaching and learning

the book explores the remedial pedagogy applied during intervention designed to improve the students metacognitive processes of learning new english language knowledge todays globalization and technology on social behaviors demand that school age students acquire reading skills by the use of audio visual practices the linguistic integrations during the intervention processes combined with direct instruction produced an individualized awareness of improvements in comprehension each student cognitively processed the audio input and visual text my findings were related to the cultural practices of esol and ell students to counteract the mismatch between home and school language frameworks this type of technique encourages students to use the concepts of the english language related to what they hear read and speak within and outside of the school environment

help your students navigate complex texts in history social studies and english language arts this book shows you how to use a key tool text based questions to build students literacy and critical thinking skills and meet the common core state standards you ll learn how to ask text based questions about different types of nonfiction and visual texts including primary and secondary sources maps charts and paintings you ll also get ideas for teaching students to examine point of view write analytical responses compare texts cite textual evidence and pose their own high level questions the book is filled with examples that you can use immediately or modify as needed each chapter ends with a reflection section to help you adapt the ideas to your own classroom what s

inside helpful information on teaching different types of nonfiction texts including literary nonfiction informational texts primary and secondary sources and visual texts ideas for locating primary sources questions students should ask about every text techniques for soliciting higher order questions from students ways to get students to think critically about the relationships between texts strategies to help students integrate information from different types of sources a skill that will help students respond to performance tasks on the parcc and sbac assessments and dbqs on ap exams tips for teaching students to write good responses to text based questions including how to cite sources and incorporate point of view ideas for using rubrics and peer grading to evaluate students responses connections to the informational reading standards of the common core state standards for english language arts for grades 3 12 and of the common core state standards for literacy in history social studies science and technical subjects

a guide for preparing to take the reading and writing portions of the grade ten florida comprehension assessment test fcat that includes subject reviews four full length practice tests with explained answers and test taking tips

foreword by pat wolfe following a presentation of the what why and how of thinking maps the reader is treated to a panoramic view into schools that have successfully used this unique tool kit to bridge the gap from research to practice all are worthy models to examine and follow as schools focus on continuous growth for all through both individual and school improvement the book is a must read marti richardson president national staff development council how do we support all learners to use thinking skills across disciplines visual organizers reflect what we know of how the brain processes stores links and builds new learning in this new resource david hyerle the originator of thinking maps shares stories from teachers principals and trainers who have adopted the maps to increase student achievement and revitalize learning communities among the specific successes here

teachers and leaders will find ways to use thinking maps as a visual language and a frame of reference to help all students access difficult content areas provide a bridge to overcome cultural disconnects between teachers and learners spur higher order thinking and discussion even in young children offer a tool to assess content understanding in students with limited english provide a means for students to think and talk more deeply about mathematics provide prompts and organizers for more effective writing offer new learning supports for students with differences provide a common learning community toolbox for teachers students and parents integrate learning across grades and subjects and from prior knowledge to new learning students teachers and administrators have proven that thinking maps are a key to improving performance by students across cultures and languages raising the quality of instruction and offering new pathways to sustain constructive conversations within schools

yes we should hold public schools accountable for effectively spending the vast funds with which they have been entrusted but accountability policies like no child left behind based exclusively on math and reading test scores have narrowed the curriculum misidentified both failing and successful schools and established irresponsible expectations for what schools can accomplish instead of just grading progress in one or two narrow subjects we should hold schools accountable for the broad outcomes we expect from public education basic knowledge and skills critical thinking an appreciation of the arts physical and emotional health and preparation for skilled employment and then develop the means to measure and ensure schools success in achieving them grading education describes a new kind of accountability plan for public education one that relies on higher quality testing focuses on professional evaluation and builds on capacities we already possess this important resource describes the design of an alternative accountability system that would not corrupt education as does nclb and its state testing systems explains the original design of naep in the 1960s

and shows why it should be revived defines the broad goals of education beyond math and reading test scores and reports on surveys to confirm public and governmental support for such goals relates these broad goals of education to the desire for accountability in education

managing school districts for high performance brings together more than twenty case studies and other readings that offer a powerful and transformative approach to advancing and sustaining the work of school improvement at the center of this work is the concept of organizational coherence aligning organizational design human capital management resource allocation and accountability and performance improvement systems to support an overarching strategy this central idea provides a valuable conceptual framework for current and future school leaders the case studies presented in managing school districts for high performance grow out of the public education leadership project help a unique partnership between the harvard business school the harvard graduate school of education and a network of urban school districts this rich array of cases explores the managerial challenges districts face as they seek to ensure rich learning opportunities and high achievement for all students across a system of schools this book of insightful case studies fills a void long felt by educational administrators in search of practical real world training tools it will serve as a catalyst for the tough conversations district leaders need to have about achieving high quality outcomes for all students the broad center for the management of school systems has used many of these cases with great success and we are excited that they are now compiled into a single collection dan katzir managing director the broad foundation this volume is not a treatise about how schools and districts should work rather it provides a deep immersion in the real dilemmas involved in advancing school district reform anyone who works through these cases cannot help but come away with a more informed vision for change a more reflective orientation about the interrelationships among the multiple tasks involved and a more prudent grasp of what it takes to educate all children to high

academic standards the course of study presented by managing school districts for high performance should be required professional education for anyone charged with advancing a coherent agenda of school improvement in our diverse demanding and rapidly changing society anthony s bryk spencer professor of organizational studies stanford university this set of case studies offers practitioners policymakers and scholars the opportunity to learn from the collective wisdom and real life experiences of educational leaders involved in systemic transformation implementing coherent reform strategies designed to improve and sustain student performance often takes place in a vacuum as a former urban superintendent i believe that these selected educational case studies provide a compelling forum for shared experiential teaching and learning arlene ackerman christian a johnson professor of outstanding educational practice teachers college columbia university this collaboration between the harvard business school and the harvard graduate school of education provides a set of analytical tools to address the most complex and challenging issues facing urban public schools the contemporary case studies document actual choices and constraints and point to patterns and similarities across organizations from urban schools to corporate environments carol johnson superintendent boston public schools stacy childress is a lecturer at harvard business school richard f elmore is the gregory r anrig professor of educational leadership at the harvard graduate school of education allen s grossman is the mba class of 1957 professor of management practice at harvard business school susan moore johnson is the pforzheimer professor of teaching and learning at the harvard graduate school of education
