this phenomenal new text focuses on assisting students in learning that there can be many possible choices in the clinical decision making process and that these different choices can lead to many equally successful outcomes case studies through the health care continuum a workbook for the occupational therapy student is an entire book of case studies of adults with physical and psychological deficits each case study is followed by questions organized around performance areas and performance components treatment planning and discharge planning areas the questions are designed to encourage clinical thinking about the cases the cases encompass a variety of diagnoses and take place in a variety of health care arenas by using case studies students will begin to and advance their thinking process before directly dealing with clients the cases are comprehensive and well thought out and the questions provide a good starting point for processing and guiding critical thinking this exceptional text can be used in almost every course in the curriculum

healthcare payment systems an introduction provides a complete introduction to healthcare payment systems written by duane abbey one of the nation s leading experts and most sought out consultants on payment systems this volume makes the monumental task of medical reimbursement approachable and manageable covering the fundamentals and terminology needed to understand this discipline and the strategies needed to master it dr abbey will help you begin to develop the solid core of skills and knowledge needed to confidently approach payment systems as tools to use rather than hazards to avoid tools that will lead to improved revenue cycles and higher levels of profitability

public services throughout europe have undergone dramatic restructuring processes in recent years in connection with liberalization and privatization while evaluations of the successes of public services have focused on prices and efficiency much less attention has been paid to the

impacts of liberalization and privatization on employment labor relations and working conditions this book addresses this gap by illustrating the ways in which liberalization has contributed to increasing private and foreign ownership of public services the decentralization of labor relations has amplified pressure on wages and decreasing employment numbers and increasing workloads have improved productivity partly at the cost of service quality examining diverse public service sectors including network industries public transportation and hospitals and using international case studies privatization of public services covers a wide range of aspects of service provision with particular emphasis on companies and workers the result is a unique picture of the changes created by the liberalization processes in europe
