this book reassesses the contribution to international thought of some of the most important thinkers of the inter war period it takes as its starting point e h carr s famous critique which

more than any other work established the reputation of the period as the utopian or idealist phase of international relations theorizing this characterization of inter war thought is scrutinized through ten detailed studies of such writers as norman angell j a hobson j m keynes david mitrany and alfred zimmern the studies demonstrate the diversity of perspectives within idealism and call into question the descriptive and analytical value of the entire notion it is concluded that idealism is an overly general term useful for scoring debating points rather than providing a helpful category for analysis

this work reassesses the contribution to international thought of some of the most important thinkers of the inter war period and challenges the commonly held view that writing on international relations between the two world wars was universally utopian

this book provides an authoritative account of the controversy about the first great debate in the field of international relations of all the self images of international relations none is as pervasive and enduring as the notion that a great debate pitting idealists against realists took place in the 1940s the story of the first great debate continues to structure the contemporary identity of international relations yet in recent years revisionist historians have challenged the conventional wisdom that the field experienced such a debate drawing on expert contributors working in canada europe the united kingdom and the united states this book includes key participants in the historiographical controversy the book assembles the existing scholarship and provides a thorough analysis of the status of the first great debate in the history of international relations it is an invaluable examination of the causes and future direction of idealist and realist arguments international relations and the first great debate will be of interest to students and scholars concerned with the foundations of international relations

the end of the cold war encourages new perspectives on international relations beer and hariman provide a comprehensive set of essays that challenge and reinterpret the tradition of realism which has dominated the thinking of academics and foreign policy makers post realism the rhetorical turn in international relations systematically discusses the major realist writers of the post war era the foundational concepts of international politics and representative case studies of foreign policy discourse these essays demonstrate how realism operates rhetorically and point the way toward a richer understanding of world politics

assessing the formation process of the international criminal court icc this study provides a fuller and richer understanding of this institution it does so by adopting three analytical approaches neoliberal institutionalism regime theory and global governance examining the implications of the icc the volume draws conclusions about the changing nature of world politics in terms of conflict management authority governance and actor relevance it is highly suitable for courses and research in humanitarian and international law international relations theory globalization global governance and regime formation

an unprecedented study of one of the most substantial international non governmental campaigns ever to have been undertaken the campaign for disarmament between the two world wars which forces us to reconsider many of our assumptions about transnational civil society
